Oleodinamica **Toscana**

flexible hoses and expansion joints

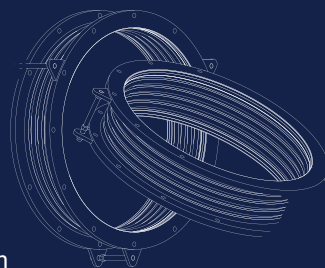

OLEODINAMICATOSCANA.IT

SINCE 1980 WITH BRUNI, CHECCACCI E SCHIAVETTI

High-level workmanship, skilled employees and production of excellence.

The company was founded in 1980, when the three founders Schiavetti, Checcacci and Bruni, combined their experience in the mechanical-electrical field. Oleodinamica Toscana is a factory specialized in the production of metal hoses, expansion joints and rubber hoses assembly. In 2001, Oleodinamica Toscana acquired Venturi s.a.s., expanding the plant.

The company a Eaton and Danfoss official distributor.
